STOP THE BRUTAL KILLINGS OF ETHIOPIANS

From Durban--Soweto in South Africa up to the desert and beaches of Libya, Ethiopians have been brutally murdered. In South Africa, they were victims of Afro-phobic mobs spurred by irresponsible officials and, in Libya, some 30 of them beheaded and shot dead by the Daesh (IS) fanatics for just being Coptic Christians. The EPRP strongly condemns the murderous Daesh group and Libyan militias who had, in the past, been taking violent actions against Ethiopian refugees.

Those who took part in the destruction of Libya have a big responsibility for creating a situation that made the appearance of savage groups like the IS in Libya and West African countries. The senseless crime against Ethiopians because of their faith is a deplorable act for which the IS will answer in the end. We also note that the regime in Addis Abeba that is the root cause of the plight and flight of Ethiopians have once again failed to protect our citizens. This regime and its fervent supporters are to be condemned too. In the end, Daesh, Al Qaida, Wahabism-Salafism etc all trace back their origin to the two bastions of evil in the Middle East--Saudi Arabia and Qatar who have both committed crimes against Ethiopian refugees and domestic workers.

The EPRP send its condolences to the families of the victims and condemns with vigor the IS butchers.
